

Stopp - Rechnen

Beispiel:

$$\begin{array}{r} 7 \ 9 \ + \ 8 = \\ 7 \ 9 \ + \ 1 = 8 \ 0 \\ 8 \ 0 \ + \ 7 = 8 \ 7 \end{array}$$

1

Jetzt bist du dran! Rechne genau wie im Beispiel!!!!

$$\begin{array}{r} 7 \ 4 \ + \ 9 = \\ \quad + \quad = \\ \quad + \quad = \end{array}$$

$$\begin{array}{r} 2 \ 6 \ + \ 7 = \\ \quad + \quad = \\ \quad + \quad = \end{array}$$

$$\begin{array}{r} 3 \ 8 \ + \ 5 = \\ \quad + \quad = \\ \quad + \quad = \end{array}$$

$$\begin{array}{r} 2 \ 8 \ + \ 6 = \\ \quad + \quad = \\ \quad + \quad = \end{array}$$

$$\begin{array}{r} 8 \ 4 \ + \ 8 = \\ \quad + \quad = \\ \quad + \quad = \end{array}$$

$$\begin{array}{r} 4 \ 8 \ + \ 3 = \\ \quad + \quad = \\ \quad + \quad = \end{array}$$

$$\begin{array}{r} 6 \ 6 \ + \ 7 = \\ \quad + \quad = \\ \quad + \quad = \end{array}$$

$$\begin{array}{r} 3 \ 9 \ + \ 8 = \\ \quad + \quad = \\ \quad + \quad = \end{array}$$

2

Wo wohnen die Zahlen? Zeichne ein: 42, 87, 31, 66, 99, 53, 18, 70, 55
